

## Minghui Diao

Department of Meteorology and Climate Science  
San Jose State University  
One Washing Square, San Jose, 95192-0104

**Email:** minghui.diao@sjsu.edu  
**Website:** [www.cloud-research.org](http://www.cloud-research.org)  
Office: (+1) 408-924-7371; Fax: (+1) 408-924-5191

### Education

Ph.D. Department of Civil and Environmental Engineering, Princeton University, Princeton, NJ, 2013  
B.S. Environmental Sciences, Peking University, Beijing, China, 2008

### Research Positions

Associate Professor, Department of Meteorology and Climate Science, San Jose State University, 2020–Present  
Assistant Professor, Department of Meteorology and Climate Science, San Jose State University, 2015–2020  
Advanced Study Program Postdoctoral Fellow, National Center for Atmospheric Research, 2013–2015  
Graduate Research Assistant (advised by Prof. Mark A. Zondlo), Princeton University, 2008–2013  
Undergraduate Research Assistant (advised by Prof. Maosheng Yao), Peking University, Beijing, China, 2007–2008

### Research interests

Aircraft-based in-situ and remote sensing observations of water vapor, aerosols and clouds  
Climate model parameterizations of cloud macrophysical and microphysical characteristics  
Health impacts of fine particulate matter from wildfire emissions  
Aerosol indirect effects on ice and mixed-phase clouds  
Numerical simulations of NCAR CM1 model, WRF and CAM models

### Fellowships and Awards

**Lawrence Livermore National Laboratory mini-Faculty Sabbatical Fellowship**, 2021  
**San Jose State University Research Foundation Early Career Investigator Award**, 2019 (*award to two assistant professors in SJSU per year*)  
San Jose State University Faculty RSCA Assigned Time Program Award, 2018  
San Jose State University College of Science RSCA Assigned Time Award, 2018  
**NCAR Advanced Study Program Faculty fellowship, 2018**  
**NCAR Advanced Study Program Faculty fellowship, 2016**  
**NCAR Advanced Study Program postdoctoral fellowship**, 2013–2015  
**NASA Earth and Space Science (NESSF) Fellowship**, 2009–2012  
**Francis Robbins Upton Graduate Fellowship at Princeton University**, 2008–2012 (*one of the two highest graduate fellowships given by the School of Engineering and Applied Science at Princeton University*)  
Walbridge Fund Graduate Award, Princeton University, 2012 (*Award to three graduate students per year*)  
Princeton Environment and Climate Scholars (PECS) Award, 2012  
Outstanding Student Paper Award, American Geophysical Union 2010 Fall Meeting, San Francisco, USA, 2010  
Outstanding Student Paper Award, American Geophysical Union 2009 Spring Assembly, Toronto, Canada, 2009  
NSF Graduate Student Travel Award to Water Vapor and Climate System (WAVACS) workshop, France, 2009  
Peking University Honored Graduate and Honored Thesis for Bachelor of Science, 2008  
**Jun-Tsung Fellowship** (*awarded by Nobel Laureate Tsung-Dao Lee to 16 undergraduate students in China*), 2007  
Baogang Fellowship, Peking University, 2007  
Lin Chao Geoscience Fellowship, Peking University, 2006  
Chinese Chemistry Olympiad National First Prize, 2003

### Field Campaigns

Jan – Feb 2018 **NSF Southern Ocean Clouds Radiation Aerosol Transport Experimental Study (SOCRATES) campaign**  
*Hobart, Australia*  
Jan – Mar 2017 **NSF Airborne Research Instrumentation Testing Opportunity (ARISTO) campaign**  
*Broomfield, CO*

- Jan – Feb 2016 **NSF O<sub>2</sub>/N<sub>2</sub> Ratio and CO<sub>2</sub> Airborne Southern Ocean (ORCAS) campaign**  
*Punta Arenas, Chile*
- 2008 - 2011 **NSF HIAPER Pole-to-Pole Observations (HIPPO) global campaign deployment #1-5**  
*USA, New Zealand and Australia*  
Four-year field work with five HIPPO deployments at multiple sites  
Laboratory calibration and field maintenance of the open-path VCSEL laser hygrometer onboard the NSF/NCAR Gulfstream-V (GV) research aircraft  
Participating in all HIPPO science meetings; presenting the results in multiple conferences
- April 2013 **AQUAVIT-2** campaign at Karlsruhe Institute of Technology (KIT), *Karlsruhe, Germany*  
Calibration of the VCSEL hygrometer and the RHS chilled mirror system during the intercomparison campaign of water vapor instruments at the AIDA cloud chamber
- May 2012 **NSF Deep Convective Clouds & Chemistry Experiment (DC3) campaign, Kansas, US**  
Field maintenance and calibration of the VCSEL hygrometer on the NSF/NCAR GV
- Jan/Feb 2012 **NSF Tropical Ocean Troposphere Exchange of reactive halogen species and oxygenated VOC (TORERO) campaign, Costa Rica and Chile**  
Laboratory calibration of VCSEL laser hygrometer before and after the flight campaign
- September 2010 **NSF Pre-Depression Investigation of Cloud-systems in the Tropics (PREDICT) campaign, US Virgin Islands**  
QA/QC of water vapor data; data analyses of ice crystal and ice supersaturation,
- April-June 2008 **NSF Stratosphere-Troposphere Analyses of Regional Transport (START08) campaign, Colorado, US**  
QA/QC of VCSEL data; data analyses of GFS model meteorological background

**Publications (\*indicates student author from Minghui Diao's group)**

94. Diao, M. and M.A. Zondlo. Ice Supersaturated Regions Formed by the Inhomogeneities of Water Vapor Field in the Upper Troposphere in START08 and HIPPO Global Campaigns. AGU Fall meeting, San Francisco, December 2010 (*Outstanding Student Paper Award for AGU 2010 Fall Meeting*)
95. Diao, M. and M.A. Zondlo. What are the conditions for ice supersaturation in the upper troposphere and lower stratosphere? Brown bag seminar, Civil and Environmental Engineering, Princeton, March 12, 2010, oral presentation.
96. Diao, M. and M.A. Zondlo. In situ measurements of ice supersaturation in the upper troposphere in START08 campaign. AGU Joint Assembly, Toronto, Canada, May 2009 (*Outstanding student presentation award for AGU 2009 Joint Assembly*).
97. Diao, M. and M.A. Zondlo. Ice supersaturations from the VCSEL Hygrometer in HIPPO Global and START08 Campaigns. Water Vapor and Climate System (WAVACS) summer school, Corsica, France, September 2009.

### Teaching

METR 215 Advanced Physical Meteorology (Graduate-level), 2016 – present  
 METR 125 Physical Meteorology (Undergraduate-level), 2016 – present  
 METR 112 Global Climate Change (Undergraduate general education), 2015 – present

METR 12 Global Warming (Undergraduate General Education), 2019

### Advising

2021 – present, Derek Ngo, Dao Wang, M.S. candidate

2020 – present, Flor Vanessa Maciel, Tyler Barone, M.S. candidate

2019 – present, Ching An Yang, M.S. candidate

2018 – 2020, Ryan Patnaude, M.S.

2015 – 2019, Kathryn Steinmann, M.S.

2015 – 2018, John D'Alessandro, M.S. degree at San Jose State University (John received the *Walker Fellowship* (\$5000), and the *John P. and Anna Monteverdi Scholarship 2017-2018* (\$10,000))

2017 – 2020, Jackson Yip, B.S. candidate

2017 – 2019, Abril Alberto, Ching An Yang, B.S.

### Professional Services

1. Co-Editor to Journal: *Atmosphere*, Special Issue Title: *Aerosol influence on Mixed-phase and Ice clouds: Laboratory, Field, Remote-sensing and Modeling studies*, Duration: 1 October 2019 – 31 September 2020.
2. Chair and convener of conference sessions “Microphysical and Macrophysical Properties and Processes of Ice and Mixed-Phase Clouds: Linking in Situ, Remote Sensing Observations and Multiscale Models (oral and poster)” at *AGU Fall 2020, 2019, 2018, 2017 and 2016 meetings*.
3. Reviewer for **National Science Foundation** proposals (four proposals); Reviewer on **NASA** peer-review panel in 2017 and 2019.
4. Reviewer for Journal of Geophysical Research-Atmosphere, Atmospheric Measurement Techniques, Bulletin of the American Meteorological Society, and a sub-journal of Nature.

### Professional Organizations

American Geophysical Union 2008-present; American Meteorological Society 2018-present

AMS Cloud Physics Committee 2016-present; organizing the AMS Cloud Physics Conference in July 2018.

### Funding sources (sum: \$3.93 M)

23. **NASA ROSES-2020 A.23 Atmospheric Composition Campaign Data Analysis and Modeling (ACCDAM)**. Award amount \$543,943. Period: Pending. “*Aerosol indirect effects on cirrus clouds based on NASA flight campaigns and global climate models*”. Minghui Diao (PI). (Notified by the program manager, allocation pending).

22. **DOE Lawrence Livermore National Laboratory (LLNL) Mini Faculty Sabbatical Fellowship**. Award amount: \$43,500. Period 08/16/2021 – 12/17/2021.

21. SJSU’s first Curriculum Sustainability cohort sponsored by SJSU Center for Faculty Development, granted through PepsiCo’s Pouring Rights contract with SJSU. \$500 in Professional Development funds.

20. **US DOE Atmospheric System Research (ASR) grant #DE-SC0021211**. Award amount: \$629,187. Period 09/01/2020 – 08/31/2023. “*Advancing the Understanding of Cloud Microphysical Processes and Aerosol Indirect Effects in High-Latitude Mixed-Phase Clouds by Linking ARM Measurements with Climate Model Simulations*”, Minghui Diao (PI).

19. **NSF Office of Polar Programs (OPP) grant #1744965**. Award amount: \$478,897. Period 04/15/2018 – 03/31/2022. “*Collaborative Research: Ice Supersaturation over the Southern Ocean and Antarctica, and its Role in Climate*”, Minghui Diao (PI).

18. **NCAR ASP Faculty Fellowship**. Award amount: \$8,750. Award period 7/20/18 – 8/19/18, Minghui Diao (PI).

17. **NSF Division of Atmospheric and Geospace Sciences (AGS) grant #1642291.** Award amount: \$338,940. Award period 08/15/17 – 07/31/20. “*Collaborative Research: Cirrus Cloud Formation and Microphysical Properties from In-situ Observed Characteristics to Global Climate Impacts*”, Minghui Diao (PI).

16. **NASA ROSES-2016 NNX16AQ91G** Award amount: \$699,188. Award period 08/17/16 – 08/16/20. “*Satellite-Derived PM<sub>2.5</sub> Grids with Dispersion Model Downscaling: PM<sub>2.5</sub> Data to Support Community-Scale Air Quality Health Research and Policy Development*”, Minghui Diao (PI).

15. **NSF Major Research Instrument (MRI) program grant #1727052** Award amount: \$684,462. Award period 09/01/17 – 07/31/21. “MRI: Acquisition of a Multi-purpose Cloud Radar”, Craig B. Clements (PI), Minghui Diao (Co-I), Neil Lareau (Co-I).

14. SJSU Undergraduate Research Grant (URG), Award period: 8/1/2019 – 6/30/2020. Award amount: \$1,000 for undergraduate student research assistantship, “Cloud Characteristics at McMurdo Station in Antarctica in AWARE campaign”, Minghui Diao (PI).

13. SJSU Central Research, Scholarship and Creative Activity (RSCA) Program; Award period: 8/1/2019 – 6/30/2020. Award amount: \$5,000 for graduate student research assistantship. “Improving Understanding of Clouds in Polar Regions based on Recent Field Campaigns in Arctic, Antarctica and Southern Ocean”, Minghui Diao (PI).

12. SJSU COS Just-in-Time Fund Award amount: \$3000, \$800, \$2400. Award period 2017 – 2019. Travel support to Minghui Diao and her students to attend conferences.

11. National Center for Atmospheric Research (NCAR) **Advanced Study Program Faculty Fellowship.** Award amount: \$19,750. Award period 5/17/16 – 8/16/16. “Ice crystal formation and evolution based on airborne in-situ observations and laboratory calibration”, Minghui Diao (PI).

10. SJSU Central Research, Scholarship and Creative Activity (RSCA) Infusion Program; Award period: 3/1/16 – 5/31/16. Award amount: \$3,999 for graduate student research assistantship. “Anthropogenic influences on ice cloud formation based on in situ airborne observations over the Southern Ocean”, Minghui Diao (PI).

9. NCAR extra travel fund (\$2000): funded my travel to AMS 14th Cloud Physics conference, Boston, and AMS 27th Conference on Weather Analysis and Forecasting (WAF), Chicago, 2013-2014.

8. NCAR Advanced Study Program (ASP) postdoctoral fellowship (\$57,500 + \$3000 for two years): Funded my two-year postdoc research at NCAR, travel to AGU 2013 and 2014 Fall meetings and the AMS 14<sup>th</sup> Cloud Physics conference, 2013.

7. Princeton Environment and Climate Scholars (PECS) Grant (\$1000): Funded my trip to the Rio+20 United Nation Conference on Sustainability at Rio de Janeiro, Brazil in April 2012; funded my visits to IIT, Mumbai and College of Engineering at Pune, India in May-June 2013.

6. Walbridge Fund Graduate Award (\$7000): Funded my participation in the AQUAVIT-2 campaign at Karlsruhe, Germany, and my visit to the DOE ARM site at Cape May, MA during DOE TCAP campaign, 2012-2013.

5. NSF Student Travel Award (\$1500): Funded my participation in the Water Vapor and Climate System (WAVACS) summer school in France, 2009.

4. NASA NESSF graduate fellowship NNX09AO51H (\$30,000 + \$3000 travel per year for 3 years), 2008-2012: Funded my research on the validation of NASA AIRS retrievals of water vapor and temperature with aircraft-based observations; funded my travels during the NSF HIPPO Global deployment 2-5.

3. Princeton University waived tuition for graduate students winning external funding (\$35,500 per year), 2008-2012.
2. Princeton University fellowship to first year graduate student with waived tuition (\$30,000+35,500), 2008-2009.
1. Princeton University Francis Upton fellowship (\$4000 extra stipend per year; \$1000 campus visiting trip fund), 2008-2012

### **News highlights and outreach activities**

- 2019-June San Jose State University Spartan News, Immigration Heritage Month, featured article:  
<https://blogs.sjsu.edu/newsroom/2019/sjsu-celebrates-immigrant-heritage-month-with-spartan-stories/>
- 2019-April SJSU News Spartan Daily, “Cloudy with a Chance of Honor”, featured article:  
<https://sjsunews.com/article/cloudy-with-a-chance-of-honor>
- 2014-Sep NCAR Newsletter featured story: Atmospheric science: from research to the real world.  
[http://www.asp.ucar.edu/asp\\_update/14/September2014.pdf](http://www.asp.ucar.edu/asp_update/14/September2014.pdf)
- 2013-May Princeton Energy and Climate Scholars (PECS) international trip  
Presented my research at the seminar on campus sustainability with College of Engineering at Pune (COEP) at Pune; Organized discussions with professors at India Institute of Technology (IIT) on climate and energy issues at Mumbai, India.
- 2013-Apr North Star academy high school career open day  
Volunteered to do presentations about Princeton university graduate school application process, grad student life and academic career path introduction.
- 2012-Aug Research highlighted in Princeton School of Engineering and Applied Sciences (SEAS) Equad News, Summer 2012, Volume 24, Issue 1
- 2012-May Research highlighted in Princeton Environmental Institute website for 2012 Walbridge Award:  
<https://environment.princeton.edu/news/archive/?id=7498>
- 2010-2012 Graduate Student Chair at Civil and Environmental Engineering Department  
Organized student activities and seminars
- 2012 Jun Rio+20 United Nations Conference on Sustainable Development at Rio de Janeiro, Brazil  
Organized a UN Side events side event during Rio+20 conference  
Organized a workshop at the Pontificia Universidade Catolica (PUC) at Rio de Janeiro
- 2011-Dec Research highlighted in Princeton Environmental Institute website:  
<https://environment.princeton.edu/news/archive/?id=6300>
- 2010-Fall Research highlighted in Princeton SEAS Equad News, “Round-the-world mission puts greenhouse gases in laser focus”: <https://engineering.princeton.edu/sites/default/files/atoms/files/e-quad-news-winter-2010.pdf>
- 2010-Jul Research highlighted on Princeton homepage news:  
<https://www.princeton.edu/news/2010/07/15/earths-last-frontier-atmosphere?section=mm-featured#top>
- 2010-Apr Research highlighted in Princeton Alumni Weekly, issue April 07 2010
